XBond ACO

Traditional roof tile style in gloss

XBond by Metrotile inspired by lasting classic style of traditional european roofs.

Two 0.3 mm thick AZ150 steel layers are bonded together with polymer adhesive. The sound-absorbing polymer provides a robust structure, featherlight weight, and reduced rain noise. The roof panel is finished with a super-durable powder coating to ensure a stylish, scratch-resistant, and ultra-UV-resistant surface finish.

Size - overall (mm)
1470 x 410

Tiles per m²
1,95 pcs

Weight per panel
3,28 kg

Size - cover (mm)
1400 x 367

Roof cover
0,513 m²

Easy installation

handling and cutting
are easy, perfect
for reroofing

Pitch
12°-90°

Powder coating

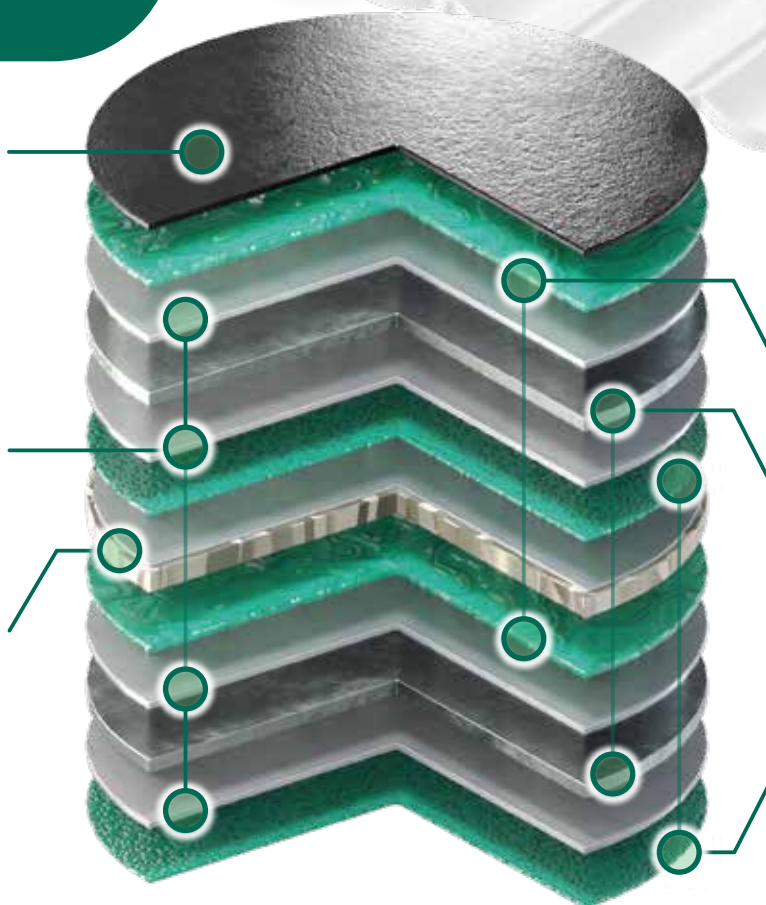

Super durable scratch and
UV resistant 80-micron
coating

Aluminum-zinc alloy

55% aluminum, 45% zinc

Polymer film

Additional sound insulation
and connection of the steel
layers

Polyurethane primer

Protection and corrosion
resistance to the steel core

Steel 0,30 mm

Durable, rigid, lightweight
steel core

Polyester backer

Superior corrosion
resistance at the underside
of the tile
